

Fourth Year Projects

TECHNICAL MILESTONE REPORT: FEEDBACK FORM

NOTES:

This form is to be completed by the supervisor and separately by the assessor for each project, and then returned to the Project Coordinator. Feedback will be sent to students by Monday of week 6.

Students have been advised that the Technical Milestone Report will be assessed for: (i) Professionalism of presentation, (ii) Motivation for the work, (iii) Clarity of explanation, (iv) Achievement in the project so far, (v) Quality of structure and detail in the plan for future work.

Name of Student: Sam Drury
(PLEASE PRINT)

College: CHR

Brief Title of Project: Ducted Fan Aerodynamics for VTOL Electric Vehicles
(PLEASE PRINT)

Name of Assessor: Dr C A Hall
(please delete as appropriate) (PLEASE PRINT)

Project Group: A

Please indicate:

i) Professionalism of presentation:

A/B

ii) Motivation for the work:

B

iii) Clarity of explanation:

B

iv) Achievement in project so far:

A

v) Plan for future work:

B

where:

A = Excellent

B = Good

C = Satisfactory

D = In need of improvement

Comments:

Interesting subject, but objectives are unclear. Would be useful to list the specific aims and how these have been adjusted in response to disruption. Good tables and figures but some labelling could be improved. Very good progress shown with design and results. However, the plan could be clearer: will the outcome be a better design tool or new designs assessed in Turbostream?
